REMEMBERED FIRE BOYS.

Chief C. E. Jenkins is in receipt of a check for \$25 for the Bryan fire department from the Lawrence Grocery Company. This check is given the boys for the excellent work of the fire department during the fire that recently threatened this establishment. Donations like the above are always appreciated by the fire boys, who are every ready to render protection to the public.

As for the German colonies in the Southern Pacific, the New Zealand minister of finance serves notice that they must never be restored to the kaiser. It's a case, perhaps, of the old lion's whelps tasting raw meat.—Springfield Republican.

Model Child.

After her third day's attendance at school, Pauline was retelling at home stories of her classmates' naughtiness. "That's bad," commented mamma. "Didn't the teacher have to correct you?"

"No," Pauline assured her. "She had to speak to all the class but me this afternoon."

"That's queer," remarked papa, a bit suspicious. "What did she say?" "She said," reported Pauline, "Now, children, we will all wait till Pauline is in order!"—Everybody's.

Justice consists in doing no injury to men; decency, in giving them no offense.—Cicero.

Although the average man may now when to stop, he seldom does it.

GERMANY SOLVES
PROBLEM OF TINBecause of Scarcity of Tin, Important
Discovery Made By Combining
Other Metals.

(Correspondence of Associated Press)

Berlin, Feb. 1.—German inventive genius, under pressure of Mother Necessity, has been applied successfully to the discovery of a solder with practically no tin, a metal not found in Germany.

Resort was first had to cadmium, a metal of the zinc group found in large quantities in Germany, and an excellent solder was produced from 80 per cent lead, 10 per cent cadmium and only 10 per cent of the precious tin. This, however, could not be used for making and sealing cans for preserving foodstuffs, as lead, when brought into contact with fruit or other acids, produces poisonous salts. Chemists then remembered, blamuth, another metal found in large quantities within the empire, and from cadmium, blamuth and some other German metals a solder was produced which is non-poisonous and almost free from tin. Since a fourth of the 21,000 tons of tin which Germany imports and consumes annually in peace times is used in making solder, the invention will go far toward solving Germany's wartime tin problem, which recently led the government to decree a general confiscation of the tin tops of beer mugs and steins.

Regular meeting of the Woodmen of the World tonight at 8 o'clock, sharp! Entertainment by Special Committee. Members are urged to be present. J. D. MANN, C. C. JOE B. REED, Clerk.

Business First.

In a certain Sunday school on a hot Sunday afternoon one of the teachers became somewhat faint, and was placed upon a form while the usual restoratives were applied.

Suddenly a little girl stood up and persistently called, "Teacher! Teacher!" in order to attract the attention of one of those who were attending to the unfortunate invalid. At last the little one was heard and the teacher, turning around, asked in a somewhat hasty manner:

"Well, what is it?" "Please, teacher," replied the child, "my father makes coffee."—Tit-Bits.

Making a Seaport.

A gentleman from Vermont was travelling West in a Pullman when a group of men from Topeka, Kan., boarded the train and began to praise their city to the Vermonters, telling him of its wide streets and beautiful avenues. Finally the Vermonters became tired and said the only thing that would improve their city would be to make it a seaport.

The enthusiastic Westerners laughed at him and asked how they could make it a seaport, being so far away from the ocean.

The Vermonters replied that it would be a very easy task.

"The only thing you have to do do," said he, "is to lay a two-inch pipe line from your city to the Gulf of Mexico. Then if you fellows can suck as hard as you can blow, you will have a seaport inside half an hour."

SOLE SURVIVOR OF
NINTH LEGISLATUREHe Has Accepted Invitation of the
Present Body to Be Its Guest
on March 2nd.

Lockhart, Texas, Feb. 8.—The unanimous resolution adopted by the Texas legislature inviting the members of the Ninth legislature to be the guests of that body March 2nd will be accepted by Captain J. P. McDowell, aged 93, of Lockhart. The Ninth legislature is referred to as the secessionist legislature and Captain McDowell is of the opinion that he is the only living member of that body.

The captain is in receipt of the invitation and expresses pleasure in accepting same, and will make the trip to Austin with his son in an automobile. Despite his age, Captain McDowell is hale and hearty and evinces the deepest interest in current events, as he did in the earlier days of the state's affairs.

The counties of Caldwell, Hays and Blanco were represented by Captain McDowell.

AUTOMOBILE REGISTER.

480—H. B. Crawford, Ford, Millican.
481—R. B. Grant, Regal, Bryan.

WISE AND OTHERWISE.

"Just think! An archaeologist at the University of Pennsylvania has found an undelivered clay letter 4000 years old." "Lucky dog! He probably died before his wife discovered that he had forgotten to mail it."—Puck.

An author, after writing a book, does nothing for a few months but look around and drink generally.—Holmes.

"I hope we'll see more women in Congress," declares Mrs. Fluddub. "The rotunda of the capitol would be a grand place to give a bridge."—Louisville Courier-Journal.

If you do not like a man, try to find out whether you are the reason or whether he is.—Youth's Companion.

The Lady of the House: "Mary, it seems to me that the crankiest mistress gets the best cooks." The genius of the Kitchen: "Aw, gwan on now, mum, with your flattery!"—Puck.

Cholly says he is unable to collect his thoughts. "Perhaps there are none coming to him."—Boston Transcript.

The learning of Scotchmen is like bread in a besieged town; every man gets a little, but no man gets a full meal.—Dr. Johnson.

Does your wife attach much importance to you?" inquired the intrusive relative. "Oh, yes," replied Mr. Meekton. "Henrietta realizes that a man she would consent to marry must necessarily be important."—Washington Star.

An admirer of Kipling suggests that the history of Balkin diplomacy should be called "The Bungle Book."

UGH! CALOMEL MAKES
YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You!
It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick, I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Get a Receipt.

In the January Farm and Fireside, the national farm paper published at Springfield, Ohio, a writer says:

"Most business houses today will give you a receipt without the asking. But it's for your own protection that you ask for one anyway. There are too many chances for a mistake to creek into the bookkeeping, and you will have to pay again."

"A neighbor farmer bought \$80 worth of wire fencing. He paid cash for it and took the fence home. In a few weeks there was a bill mailed to him for the price of the fence. He tried his best to get out of it, but there were no witnesses and he had to pay the entire thing again. A receipt would have saved this for him. It would have taken perhaps three minutes to get it, but \$25 a minute is pretty fair remuneration for a farmer's time it seems to me."
